

SPAIN ANNOUNCES THE FIRST AUCTION TO ALLOCATE A SPECIFIC REMUNERATION REGIME TO NEW BIOMASS ELECTRICITY PRODUCTION FACILITIES LOCATED WITHIN SPAIN'S MAINLAND ELECTRICITY SYSTEM AS WELL AS TO WIND ENERGY ELECTRICITY PRODUCTION FACILITIES.

The first auction to allocate a specific remuneration regime to biomass and wind electricity production facilities will take place on the **14th of January 2016** convened by the Ministry of Industry, Energy and Tourism.

Any physical or legal person that fulfils all the requirements stated on the regulation may participate in this auction, independently of the nationality. The power capacity of technologies that will be auctioned is 200 MW for new **biomass** facilities located in the Iberian Peninsula and 500 MW for **wind** electricity production facilities.

The Administrator of the auction is the Spanish Electricity Market Operator (OMIE). For more information, please visit:
